

Recessed interior and exterior downlights

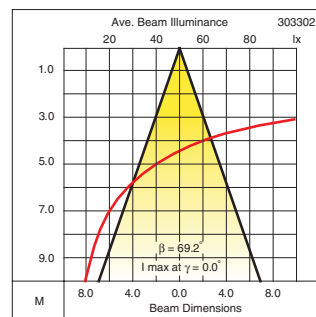

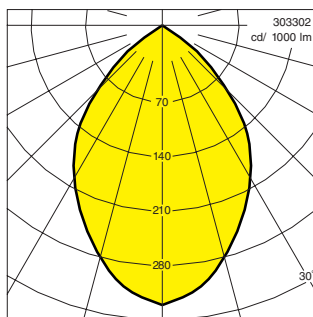

For H.I.D. lamps

IP 65 Dusttight and Jetproof conforming to DIN, VDE, IEC.
Class I.

These solidly designed recessed downlights are suitable for all areas of interior and exterior lighting. They are constructed from corrosion resistant die cast aluminium alloy and are perfect for the areas wherever dust and moisture are likely to deteriorate the property of the reflector and lamp. The very strong fastening system ensures the installation of this unit in firm position. Suitable for installation in exterior ceiling, canopies, corridors, hotels entrance illumination and etc.

- Corrosion resistant die cast aluminium alloy body and frame
- Lens made of thermal shock resistant safety glass
- Stainless steel screws
- Weatherproof and durable silicone rubber gasket
- Integral control gear
- Two cable entries facilitate through wiring
- High purity anodized reflector chemically brightened

Colour : Ultraviolet stabilized polyester powder coat finish in Black RAL 9005. Other colours are available upon consultation.
